1. The Zeitz Dry Battery Factory in Liebknechtstrasse has received an order for 25,000 dry batteries for the Red Army. These dry batteries are for use in portable radios, and are of the same type as formerly produced for the German Army.
2. At the Hallesche Maschinenfabrik, compressors for submarines have been produced during the last three months. They are shipped to Rostock. Aside from this a great part of the production of this factory consists in parts for cranes. High-speed centrifugal pumps are also produced, of a type used on submarines. These pumps are shipped to Wismar. Castings of parts for gun-mounts are received from the Frankleben Steel Works, machined and assembled for delivery to the Soviet Union. The monthly production of these mounts is twenty-five.
